BACKGROUND AND LEGISLATION

BACKGROUND

The Education and Care Services National Regulations mandate that approved providers establish policies and procedures regarding the safe travel of children who travel between an educational service and any other educational or early childhood service, for example from a kindergarten service to a long day care service.

Ensuring the safety and wellbeing of children in Early Education and Care (ECEC) services is the utmost priority, and approved providers and ECEC services must take necessary steps to safeguard children from potential harm or dangers, especially during their travel to and from the service.

Particular attention should be given to the transportation of children, especially during peak traffic times and high foot traffic periods. Protecting children during their journey between the service and other educational settings can be accomplished by preparing comprehensive policies and procedures, along with an effective implementation process.

LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- Education and Care Services National Law Act 2010
- Education and Care Services National Regulations 2011
- National Quality Standard
- Road Safety Act 1986
- Road Safety Road Rules 2009 (Vic)

DEFINITIONS

The terms defined in this section relate specifically to this policy. For regularly used terms e.g. Approved provider, Nominated supervisor, Notifiable complaints, Serious incidents, Duty of care, etc.

Adequate supervision: (In relation to this policy) supervision entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an educator at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used.

Adequate supervision refers to constant, active and diligent supervision of every child at the service, including during travel from one service to another. Adequate supervision requires that educators are always in a position to observe each child, respond to individual needs and immediately intervene if necessary. Variables affecting supervision levels include:

- number, age and abilities of children
- number and positioning of educators
- current activity of each child
- areas in which the children are engaged in an activity (visibility and accessibility)
- developmental profile of each child and of the group of children
- experience, knowledge and skill of each educator

- need for educators to move between areas (effective communication strategies).

Attendance Record: Kept by the service to record details of each child attending the service including name, time of arrival and departure, signature of person delivering and collecting the child or of the nominated supervisor or educator.

Regular outing: (In relation to education and care services) means an excursion such as a walk, drive or trip to/from a location that the service visits regularly as part of its educational program, and where the circumstances covered by the risk assessment are the same on each trip. If an excursion is a regular outing, an authorisation from parents/guardians is only required to be obtained once every 12 months. A new authorisation is required if there is any change to the circumstances of the regular outing.

Risk assessment and management template - Excursions

Approved providers, nominated supervisors and family day care educators must ensure a risk assessment is carried out before children are taken outside the service premises on an excursion. Prior authorisation must also be obtained from parents or other authorised nominees.

ACECQA has prepared this template to assist services in undertaking risk assessments before children leave the service premises as part of an excursion, which services may wish to incorporate within their own risk assessment material.

Regulation 101 of the Education and Care Services National Regulations includes the minimum risk assessment considerations for excursions, including specific considerations when an excursion involves transporting children.

Note: A risk assessment is only required to be completed at least once for a 12 month period if the excursion is a '*regular outing**'.

*Regular outing: means a walk, drive or trip to and from a destination that the service visits regularly as part of its educational program, and where the circumstances relevant to the risk assessment are substantially the same on each outing.
